

# A2 CLASS MEMBRANE NB

## A2 CLASS MEMBRANE FOR CONSTRUCTION APPLICATIONS

**FIREFLY™ Membrane NB** is a premium quality and fire resistant non breathable membrane. Made from a strong, durable woven glass substrate laminated to aluminium foil, **FIREFLY™ Membrane NB** is a non-breathable, weatherproof barrier with excellent mechanical properties designed to be an impermeable water barrier or reflective insulation layer in commercial wall applications.

**FIREFLY™ Membrane NB** meets EN 13501-1 (Class A2), for non-combustibility and BS 476 parts 6&7 for resistance to spread of flame.

**FIREFLY™ Membrane NB** is lightweight, extremely strong, durable and easy to install. (Note: joins between membrane layers should be sealed with **FIREFLY™** Foil Tape).

<b>DESCRIPTION</b>	Durable woven glass substrate laminated to aluminium foil
<b>PRODUCT CODE</b>	EKA161/1.25/50
<b>COMBUSTIBILITY</b>	EN 13501-1:2018, A2-S1, d0 BS476-6:1989 + A1 2009, Class 0
<b>DIMENSIONS</b>	1.25m x 50m roll (62.5m <sup>2</sup> )
<b>WEIGHT</b>	Nominal 14Kg per roll
<b>THICKNESS</b>	Nominal 0.2mm
<b>OTHER PROPERTIES</b>	Further information describing physical properties can be made available on request.
<b>INSTALLATION</b>	<b>FIREFLY™ Membrane NB</b> is not designed to withstand prolonged exposure to the elements. <b>FIREFLY™ Membrane NB</b> is a durable material but care should be taken to ensure it is not damaged during storage or installation. General installation advice is available on request.
<b>FIREFLY™</b>	All <b>FIREFLY™</b> products must be installed in compliance with the <b>FIREFLY™</b> Installation Guide, which is provided upon request. Deviation from these drawings should not be carried out without written authority from the <b>FIREFLY™</b> Technical Department.  All figures quoted are nominal, believed to be true at the time of printing and are presented without guarantee. It is up to the user to determine the suitability of use.
